# X3200 MK3 Chronograph

Xcortech X3200 MK3 Chronograph

Specification

Velocity rest range:

Initial Velocity measure range: 30.00 ~ 400.0 (m/s)

ROF measure range: 100 ~ 5000 (RPM)

Support Camera Tripod mount

Tube diameter 24mm

Battery: 2 x AA batteries

External Power input: micro USB (5V/0.5A)

Dimension: L x W x H = 113 x 97 x 55 (mm)

Weight: 205g

XCORTECH

X3500 Chronograph

Xcortech X3500 Chronograph

Xcortech Chronograph X3500 derived from 10 years of accumulated Xcortech technologies. The X3500 provide easy to use, high accuracy, wide shot area with Statistical Analysis. X3500 is re-design from X3200 to enhance Chronograph with wireless, shot memory, external power input, multi-screen show information and auto rotate screen.

 X3500 Product Features:

Measures Muzzle Velocity from 30 m/s ~ 400+ m/s (90 ft/s ~ 1200+ ft/s).

Separate display unit and chrono unit

Display unit is capable attach to tactical rail

Display use Dot MATRIX LCD with backlight

Memory Slots for various ammo weight and caliber

Shot memory log velocity and ROF (Rate of Fire)

Calculate MAX, MIN, E-S (Extreme Spread), AVG, S-D (Standard Deviation) by shot memory

Energy Per-Unit Area Calculation

Extra-large tube diameter (38mm)

Use AA and AAA battery

Chrono unit support external power (Micro USB)

Tripod Ready mounting holes (Screw for standard camera / camcorder tripods)

X3300W Advance BB Control System

XCORTECH

Specification

The X3300W allow user to understand the shot situation & AEG information.

To control AEG shot mode for full auto or burst mode in

The X3300W Feature:

Ultra Bright UV Light Tracer Unit

ROF
Speed
Count down
Count up
Count total shot
Burst control
Display AEG Battery level
Low AEG's battery detect (vibrate)
Programmable burst fire control for AEG
Low ammo warning
Device communicate by wireless

XT501 MK2 UV Tracer unit

Xcortech all New Advanced Design and Innovation for BB Tracer unit.
Brightest: Compare traditional tracer unit use all new technology with high Power UV LED.
Low power consumption: High efficiency design batteries last up to 120,000 RPS.
Intelligent: Build in 3D motion sensor to detect user moving to save power.

Product Features
Brightest UV Tracer BB
Batteries last up to 120,000 rounds   **test by Eneloop battery
Can sustain tracer function up to 35 RPS (2100 RPM)
High power and High efficiency UV LED
Two side light sources to grow BB in the dark
Four grow lighting level setting
Build in 3D motion sensor to detect user motion for power saving
Power saving/ standby mode/ 3D motion sensor detect mode
Automatic power on/ off (APO)
Battery level indicator (Green, Orange, Red color)
Low power detector: Automatic low power off to protect rechargeable batteries
Uses 4x AAA batteries (Not included)
For green grow in dark BB only

XCORTECH

XT501 MK2

Previous Technology
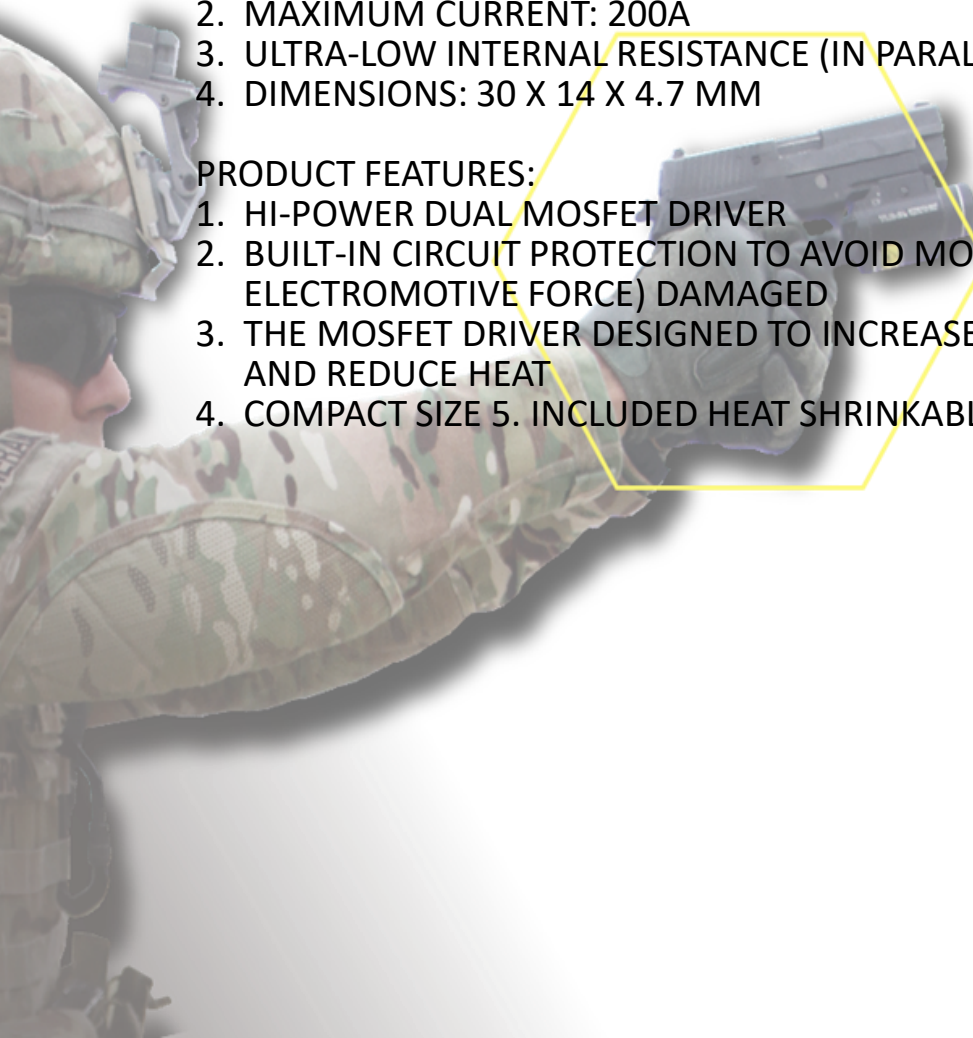

XET304u Airsoft Mosfet

XCORTECH XET304u Airsoft Mosfet
PRODUCT SPECIFICATION:
1. MAXIMUM INPUT VOLTAGE: 30V
2. MAXIMUM CURRENT: 200A
3. ULTRA-LOW INTERNAL RESISTANCE (IN PARALLEL): 0.00095 Ω
4. DIMENSIONS: 30 X 14 X 4.7 MM

PRODUCT FEATURES:
1. HI-POWER DUAL MOSFET DRIVER
2. BUILT-IN CIRCUIT PROTECTION TO AVOID MOSFET SUFFERED BEMF (BACK ELECTROMOTIVE FORCE) DAMAGED
3. THE MOSFET DRIVER DESIGNED TO INCREASE THE SHOOTING REACTION AND REDUCE HEAT
4. COMPACT SIZE 5. INCLUDED HEAT SHRINKABLE TUBING

XET304 Nano Airsoft Mosfet

XCORTECH XET304 Nano Airsoft Mosfet

PRODUCT SPECIFICATION:
1. Smallest mosfet fits almost any AEG
2. Specified for common batteries LiPo 7.4 - 14.8V
3. Electronic trigger 5 wires connection
4. Designed for current 85A single shot fire or 32A burst fire
5. Connect max. power wires AWG16, signal wire AWG20
6. The mosfet designed for Airsoft Electric Guns (AEG).
7. Included Heat-Shrinkable Tubings

Dimensions: 15.4*7.4*3.74mm (L*W*H)

Compatibility: For all Airsoft AEG gearboxes

XTS105 Auto Target System

Material: Stainless steel, Polymer
Power Input: 100-240 VAC, 50-60hz, 1.4A
LED Score Board Dimensions: 640mm x 160mm
Controller Dimensions: 90mm x 122mm x 37mm
Controller Weight: 170g
Target Dimensions: 94mm x 175mm x 39mm
Target Weight: 375g
Package Includes: 1x LED Score Board, 1x Controller, 1x Start Button, 12x Auto Targets, 12x RJ45 Ethernet Cables (Short), 1x RJ45 Ethernet Cable (Long), 1x Power Supply

Instruction Manual: http://www.xcortech.com.tw/info.html

LED Display Size: 64*16cm

XCORTECH

Xcortech XT301 MK2 Compact Airsoft Tracer Unit

Features:

• Automatic power on / power off control by Motion sensor.
• Integrated Motion sensor, Auto On/ Off, Sleep Mode (Motion On)

• Can upgrade your own Silencer to Tracer
• High power UV LED technology.
• Battery last up to 20,000 rounds.
• Can sustain tracer function up to 35 RPS (2100 RPM).
• 2 side light sources for optimum illumination.
• Built-in Lithium battery.
• Battery level indicator (Green, Yellow, Brown, Red Light).
• Micro USB Charging.
• Charge 5 Mins can shoot 1000 Rounds.
• Low power protect.
• When no longer to use it, charge battery every 3 months.

Color: Black
Diameter: 27mm
Length: 61mm
Threads: 11mm CW
Weight: 28g
Material: Aluminum
Included: 14mm CCW Thread Adapter

For use with GREEN glow in the dark BBs only

Youtube: https://youtu.be/jVYdMHXX7Lk

Xcortech XT301 MK2 RED
Compact Airsoft Tracer Unit

XCORTECH

Features:

•Use with RED and GREEN both BB glow in the dark.

•Automatic power on / power off control by Motion sensor.
•Integrated Motion sensor, Auto On/ Off, Sleep Mode (Motion On)

•Can upgrade your own Silencer to Tracer
•High power UV LED technology.
•Battery last up to 20,000 rounds.
•Can sustain tracer function up to 35 RPS (2100 RPM).
•2 side light sources for optimum illumination.
•Built-in Lithium battery.
•Battery level indicator (Green, Yellow, Brown, Red Light).
•Micro USB Charging.
•Charge 5 Mins can shoot 1000 Rounds.
•Low power protect.
•When no longer to use it, charge battery every 3 months.

Color: Black
Diameter: 27mm
Length: 61mm
Threads: 11mm CW
Weight: 28g
Material: Aluminum
Included: 14mm CCW Thread Adapter

	XT301 MK2	XT301 MK2 RED
Glow BB for	Green BB	Red and Green BB
Battery Last up	20000 Round	20000 Round
Glow Green BB	100% Light	75% light
Glow Red BB	0% Light	100% Light
	Only for Green BB glow in the dark	For Green and Red BB glow in the dark

For RED and GREEN both BB glow in the dark

Xcortech XT601 Tracer for Green BB Tracer Unit

Features:

• Use with GREEN BB only glow in the dark.

• Automatic power on / power off control by Motion sensor.
• Integrated Motion sensor, Auto On/ Off, Sleep Mode (Motion On)

• High power LED technology.
• Battery last up to 10,000 rounds.
• Sustain tracer function up to 30 RPS (1800 RPM).
• 2 side light sources for optimum illumination.
• Battery level indicator (Green, Yellow, Brown, Red Light).
• Rechargeable batteries Low power protect

• NI-MH batteries is recommended

Color: Black
Diameter: 37mm
Length: 75mm
Threads: 14mm CCW
Material: Aluminum

Power: AAA*2 Batteries, NI-MH recommended

Weight: 55g
Manufacture: Xcortech

Included: 14mm CCW Thread Adapter

XCORTECH

Xcortech X310 Airsoft Pocket Chronograph XCORTECH

Features:

Measures muzzle velocity from 1mps - 300+ mps (3fps – 980+ fps)

ROF range: 75~6000RPM

Calculates muzzle kinetic energy from 0.1~800 joule

High quality DOT Matrix backlit LCD display

External micro-USB power input (no battery charge function)

High density IR detector for fired projectiles

3 memory options for saving various ammo weight and calibers

25 Shot memory log of velocity & ROF (Rate Of Fire)

Tripod ready (Screw for standard camera / camcorder tripods)

Power: AA*1 Battery or External Micro USB

Muzzle velocity range: 1mps - 300+ mps (3fps – 980+ fps)
R.O.F. range: 75-6000 RPM
Muzzle energy range: 0.01-800 Joule
Weight: 60g
Dimensions: 72mm x 47mm x 51mm
Manufacture: Xcortech
